In French, English, Hebrew and Arabic addressing the issue of "living together"

The wisdom of the poem is the wisdom of life
On the unlimited level of their deeds,
Where there is poetry, the guardian of hell falls asleep".
Hagit Grossman

Our first step "Around the Day in 80 Words", a poetic utility event initiated as part of the France-Israel Season 2018 in the occasion of 60 years of Marseille-Haifa twinning and Israel's 70th Anniversary, takes us from one shore to the other, from the port of Marseille last june to the port of Haifa today. "Around the Day in 80 Worlds" has been devised and organized as an open laboratory where everyone can come and exchange their research, questionings, discoveries and difference, from different angles of approach. Performing together, transmitting knowledge, sharing skills and bringing together in Haifa all kind of identities is one of the key elements of the project .
